REMARKS

Summary of the Amendment

Upon entry of the present Amendment, Claim 3 will have been amended. Therefore, Claims 3 and 9-10 remain pending.

Examiner's Interview

Applicant gratefully acknowledges the courtesies extended to their representative by Examiner Wyatt in numerous telephone conversations pertaining to the subject case. In the interviews, the patentability of Claim 3 was discussed. In particular, it was agreed upon, by the Applicant and Examiner Wyatt, that replacing the term "lighting intensity level" with the term --- on/off state --- would put Claim 3 into allowable condition. Further, since Claims 9 and 10 are dependent on base Claim 3, they too would be allowable.

Application is Allowable

Applicant respectfully submits that each and every pending claim of the present invention meets the requirements for patentability and respectfully requests the Examiner to indicate allowance of each and every pending claim of the present invention.

CONCLUSION

Applicant respectfully submits that each and every pending claim of the present application meets the requirements for patentability under 35 U.S.C. §§ 112, 101, 102 and 103, and respectfully requests that the Examiner indicate the allowance of such claims.

Further, any amendments to the claims which have been made in this response and which have not been specifically noted to overcome a rejection based on the prior art, should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

Should there be any questions or comments, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
